

6 COURSE COMPLETION SECRETS

If your goal is to create some big results with the Speaking Exam Pass programme, you've got to complete the program! I am going to be cheering you along each step of the way. To help you get started the right way, I'm here with some course completion secrets - the tips I know will take you all the way to the finish line right to your language exam. I know you've got it in you, so let's dive in and do the work!

- 1. Schedule It to Make It Real.** Schedule an hour a day to go through the course. Make this course a priority. You'll be thankful you did! (If you don't schedule the time in advance, it likely will never happen.)
- 2. Complete Every Single Worksheet.** There are worksheets for almost every module. My worksheets are not just "a little added support" but instead are 100% part of each training video - meaning, don't skip them! Take them very seriously because they are essential to prepare 100% for your exam. Think of them as required work for the course.
- 3. Visit the Private Facebook Group Regularly.** The English Expander Customers group designed for Speaking Exam Pass Students is a community built around your participation. Share your wins, your challenges and your questions in this group and this will ensure you are successful right from the start. Don't be shy to post, comment and really engage in that group frequently.

4. Don't Rush. Remember, this isn't a race and you are not competing against anyone else. Go at your own pace! You have LIFETIME access to all the materials. I designed this course so that you could take action, and see big results at the exam, but you need to treat Speaking Exam Pass as your own unique experience (and have some fun while you're at it!).

5. Determine the Way You Learn Best. If you're a pen to paper learner, be sure to print out the worksheets and the slide decks and create a folder if that'll help you work through the material. If you learn best by watching the videos a few times each, give yourself that opportunity. My goal is to help you get results quickly (plus I want to be proud of you and your speaking exam results all over the web when you do get those results!). So do what it takes to get the most of your new program!

6. Commit to Taking Action Steps Each Week. The way I was able to prepare for my successful speaking test was by taking action regularly. Nothing is more motivating than getting something accomplished. This material will be new to you, but don't let that stop you from taking action. You've got this! In as little as 6 weeks, you can see amazing results, but you must, must take action.

Take action, find a date for your speaking test and make it happen.
